

## Training Modules in conjunction with PBTUK

Nice to hear that our Training Modules are well received and in particular Dennis Campbell praising his refresher course after feeling the urge to return to boating after a sabbatical. So if you are sitting on the fence read his testimonial:

“It's been sixteen years since I did Day Skipper / Yacht Master and most of the other marine courses. It opened up another world that runs parallel to land life!

A good friend once said to me, One should do the best you can at everything you learn, build or create. Who wants a half powered Ferrari!

If you don't gain the knowledge you will never reach your full potential.

We spent a number of years cruising French and Irish waters then took a break from boating. Last year we bought a new boat and I thought a re-fresher course or two would be of benefit.

I signed up for Day Skipper near my home and diesel engine at Cobbs Quay. The Diesel Engine Course was great fun with lots of discussion on various scenarios along with practical sessions on board the training vessel. The Teacher / Engineer was very knowledgeable and took time to address all the queries. These courses are great confidence builders and you get to make lots of new friends.”
